

**REMARKS**

Claims 1-15 are pending in this application, of which claims 1 and 10 have been amended. No new claims have been added.

Claims 1 and 10 have been amended in order to clarify that a video signal, a sound signal and program link information are extracted from different broadcast signals, respectively.

That is, a video signal is extracted from a first broadcast signal, a sound signal is extracted from a second broadcast signal and program link information is extracted from a third broadcast signal.

It is respectfully submitted that claims 1 and 10, as amended, are clearly differentiated from the prior art shown in FIG. 10.
